SCOPE OF THE CONGRESS AND TOPICS

This International Congress is devoted to fundamental and applied research on non-enzymatic catalytic processes for biomass transformations. CatBior is especially focused on: innovative catalytic processes; novel bioproducts and biofuels, new catalysts; and engineering and molecular aspects of the process.

TOPICS

- Transformation of lignocellulosic biomass, carbohydrates and sugar-derived products.
- Transformation of oil, fats and oleo-derived chemicals.
- Thermal and thermochemical transformations of biomass and derived products.

CALL FOR PAPERS

Authors are invited to submit an extended abstract (4-6 pages in English as MS Word) following the indications on the web site www.catbior2011.es before March 15th, 2011.

A book (and/or CD-Rom) with the proceedings of accepted contributions will be edited and distributed at the Congress. The plenary lectures and oral presentations will be published in a special issue of Catalysis Today after peers review.
